

General Information

■ Dates

February 26-28, 2026

■ Congress President

Akira Sasaki, M.D.,Ph.D.

■ Venue

Bankoku Shinryokan
1792 Kise, Nago-shi, Okinawa 905-0206, Japan

■ Dress Code

Business Casual

Social Program

■ Board Meeting

February 26 (Thu.) 17:20-17:50
Cafe Terrace / Bankoku Shinryokan

■ Welcome Party

February 26 (Thu.) 18:00-19:30
Sunset Lounge / Bankoku Shinryokan

■ Farewell Party

February 27 (Fri.) 18:20-20:30
Hau Terrace / Halekulani Okinawa

Program at a Glance

	February 27th (Fri), 2026	February 28th (Sat), 2026
8:00	8:10 - 8:15 Opening Ceremony Akira Sasaki	
8:15 - 9:00	Oral Session 1 Norio Kawamura	8:20 - 9:10 Poster Session 1 Satoshi Mizutani
9:00	9:00 - 9:35 Oral Session 2 Masatoshi Nakagawa	8:20 - 9:10 Poster Session 2 Shingo Tsujinaka
9:40 - 10:50	Sponsored Seminar 1 Kazunori Kasama Akira Sasaki	8:20 - 9:05 Poster Session 3 Junichi Arita
10:55 - 11:15	PPSA - JC Presidential Lecture Mitsuo Kusano	8:20 - 9:10 Poster Session 4 Hiroaki Omori
11:25 - 12:25	Luncheon Seminar Akinobu Taketomi	8:20 - 9:05 Poster Session 5 Nobumi Tagaya
12:30 - 13:40	Wada Award Session Michiya Kobayashi Takeyuki Misawa	9:15 - 9:35 Special Lecture 1 Hiroya Kitano
13:45 - 14:05	39th PPSA - JC Presidential Lecture Nobutsugu Abe	9:35 - 10:35 Sponsored Seminar 2 Takeshi Naitoh Takeshi Aoki
14:05 - 15:05	Meet the Professors Takeaki Matsuda Ichiro Tatsuno	10:35 - 11:05 Oral Session 7 Akira Umemura
15:05 - 15:55	Oral Session 3 Junichi Tanaka	11:15 - 11:20 Closing Ceremony Akira Sasaki
15:55 - 16:40	Oral Session 4 Yoh Asahi	
16:40 - 17:15	Oral Session 5 Miyuki Ito Tatsuhito Kanda	
17:15 - 17:55	Oral Session 6 Makoto Suzuki	
18:00		

■ Wada Award

The Wada Award was established by Ms. Shuko Wada, wife of the first President, Dr. Juro Wada, who contributed to the establishment and development of PPSA-JC, and has been accepted since the 31st Congress (Taipei) for excellent presentations by young doctors. Wada Award is open to those under 40 years of age who have applied in advance. The announcement of the Wada Award winners and the awarding ceremony will take place on this session. Please note that the award may be withdrawn if you are absent without notice.

How to Use the 39th PPSA-JC Program and Abstracts

- From the Program at a Glance, you can go directly to the page showing the abstracts for each session.
- You can search for words in the PDF using the search function. Please use the search icon (🔍), or the keyboard shortcuts Ctrl + F (search toolbar) or Ctrl + Shift + F (advanced search window).

8:10-8:15

Opening Ceremony

Ocean Hall

Akira Sasaki

Department of Surgery, School of Medicine, Iwate Medical University, Japan

8:15-9:00

Oral Session 1

Ocean Hall

Session Chair : Norio Kawamura

Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine, Japan

01-1

Withdrawn

01-2

Clinical utility of indocyanine green fluorescence imaging in laparoscopic deroofing for hepatic cysts

Shun Miyasaka

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

01-3

The impact of microscopic hepatic vein invasion on recurrence of hepatocellular carcinoma after the liver resection

Takeyuki Uebayashi

Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine, Japan

01-4

Robot-assisted liver resection using the Hinotori surgical robot system

Daiki Takeda

Department of Surgery, School of Medicine, Iwate Medical University, Japan

01-5

Minimally invasive liver resection using state-of-the-art imaging technology

Yoshihiko Tashiro

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

01-6

Postoperative de novo allergy in pediatric liver transplantation -with a Message to our beloved Prof. Wada-

Yoshiyuki Ihara

Department of Surgery, School of Medicine, Iwate Medical University, Japan / Department of Transplant Surgery, Saitama Children's Medical Center, Japan

Session Chair : Masatoshi Nakagawa

Department of Upper Gastrointestinal Surgery, Dokkyo Medical University, Japan

O2-1**Three key strategies for reconstruction after McKeown esophagectomy**

Yasunori Kurahashi

Department of Gastroenterological Surgery, Hyogo Medical University, Japan

O2-2**Surgical outcomes of palliative laparoscopic and endoscopic cooperative surgery for gastric cancer in the patients with severe comorbidities**

Kimiyasu Yamazaki

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

O2-3**Association between serum zinc levels and clinicopathological characteristics in patients with gastric cancer**

Tsutomu Namikawa

Department of Clinical Nursing, Kochi Medical School, Japan

O2-4**Comprehensive and sustainable cleft lip care in Madagascar: The value of a multidisciplinary team approach**

Yasuyoshi Tosa

Department of Plastic and Reconstructive Surgery, Keio University, Japan

O2-5**Intracorporeal knot-tying training for beginners**

Yukiko Kojima

Department of Surgery, School of Medicine, Kyorin University, Japan

Session Chairs : Kazunori Kasama

Weight loss and Metabolic Surgery Center, Yotsuya Medical Cube, Japan

Akira Sasaki

Department of Surgery, School of Medicine, Iwate Medical University, Japan

SS1-1**Sleeve plus and robot: redefining & shaping the future of metabolic and bariatric surgery**

Chih-Kun Huang

Body science & Metabolic disorders International (BMI) Medical Center, China Medical University Hospital, Taiwan

SS1-2**MIS Education : A Backbone for Young Surgeons**

Suthep Udomsawaengsup

Department of Surgery, Faculty of Medicine, Chulalongkorn University, Thailand

SS1-3**Democratizing surgical intelligence: Empowering surgical education in the digital Era****Yusuke Watanabe**Department of Advanced Robotic and Endoscopic Surgery, Fujita Health University, Hokkaido University Hospital
Institute of Health Science Innovation for Medical Care, Japan

Sponsored by Covidien Japan Inc. -Medtronic

10:55-11:15 PPSA-JC Presidential Lecture**Ocean Hall****Session Chair : Mitsuo Kusano**

Clinical director, Hokkaido Corporation, Yoichi Hospital, Japan

PL-1**The birth of life, progress in medicine, and the responsibilities of doctors****Naoyuki Kohno**

President of the Pan-Pacific Surgical Association-Japan Chapter / Professor Emeritus, Kyorin University, Japan

11:25-12:25 Luncheon Seminar**Ocean Hall****Unveiling the Microbiome****Session Chair : Akinobu Taketomi**Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine,
Japan**LS-1****Oral microbiome and esophageal cancer****Yoshifumi Baba**

Department of Gastroenterological Surgery Graduate School of Medicine, The University of Tokyo, Japan

LS-2**Gut microbiota and intestinal metabolites in the treatment of obesity and diabetes****Junichiro Irie**

Division of Diabetes and Endocrinology, Department of Internal Medicine II, Kansai Medical University, Japan

Sponsored by Miyarisan Pharmaceutical Co. Ltd.

12:30-13:40 Wada Award Session**Ocean Hall****Session Chairs : Michiya Kobayashi**

Kochi Medical School Hospital, Human Health and Medical Sciences, Japan

Takeyuki Misawa

Department of Surgery, Teikyo University, School of Medicine, Japan

Nomination committees :**Kazuyuki Kojima**

Department of Upper Gastrointestinal Surgery, Dokkyo Medical University, Japan

Masafumi Inomata

Department of Gastroenterological and Pediatric Surgery Faculty of Medicine, Oita University, Japan

Yasuyoshi Tosa

Department of Plastic and Reconstructive Surgery, Keio University School of Medicine, Japan

Akira Sasaki

Department of Surgery, School of Medicine, Iwate Medical University, Japan

WAS-1

Real variations of cystic artery classifying from intraoperative findings during laparoscopic cholecystectomy

Rui Omori

Department of Surgery, Digestive Disease Center, Itabashi Chuo Medical Center, Japan

WAS-2

Quantitative assessment of intestinal perfusion using indocyanine green fluorescence imaging and video capillaroscopy in colorectal cancer surgery

Sadahito Iseki

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

WAS-3

Effects of the bile duct bifurcation angle and position of the living donor on biliary complications in recipients after living donor liver transplantation

Taku Kimura

Department of Surgery, School of Medicine, Iwate Medical University, Japan

WAS-4

Distinct inflammatory cytokine switch by Gemcitabine versus 5-fluorouracil promotes immunosuppressive tumor microenvironment in pancreatic cancer

Takuma Kurotaki

Department of Gastroenterological Surgery II, Hokkaido University Graduate School of Medicine, Japan

WAS-5

Evaluation of reconstruction methods following robotic proximal gastrectomy: A propensity-score-matched retrospective analysis

Takahiro Ochiai

Department of Upper Gastrointestinal Surgery, Dokkyo Medical University, Japan

WAS-6

Oxidative stress, inflammatory markers, and renal function after laparoscopic sleeve gastrectomy in patients with severe obesity

Takafumi Iwasaki

Department of Surgery, School of Medicine, Iwate Medical University, Japan

WAS-7

Preclinical assessment of agreement between optical frequency domain imaging and pathology in rabbit subglottic mucosal lesions

Yuki Komyo

Division of Pediatric Surgery, Department of Surgery, Kobe University Graduate School of Medicine, Japan

Session Chair : Nobutsugu Abe

Department of Gastroenterological and General Surgery, Kyorin University Faculty of Medicine,
Japan

PL-2**My Journey from Internist to Surgeon**

Akira Sasaki

Department of Surgery, School of Medicine, Iwate Medical University, Japan

Session Chairs : Takeaki Matsuda

Professor and Chairman of the Board of Trustees of Kyorin University, Japan

Ichiro Tatsuno

President, Chiba Prefectural University of Health Sciences, Japan

MP-1**Inspired by metabolic and bariatric surgery and great surgeons: A lifelong journey in pursuit of the best obesity treatment**

Atsuhito Saiki

Center of Diabetes, Endocrine and Metabolism, Toho University Sakura Medical Center, Japan

MP-2**From inception to integration: Building a diabetes, metabolism, and endocrinology department and a metabolic and bariatric surgery team in a new medical school in Japan**

Minoru Takemoto

Department of Diabetes, Metabolism and Endocrinology, School of Medicine, International University of Health and Welfare, Japan

MP-3**The honor of academic surgeons – A physician-scientist's perspective between bench and bedside**

Koutaro Yokote

President, Chiba University, Japan

Session Chair : Junichi Tanaka

Department of Yokohama Tsurugamine Hospital, Integrated Facility for Medical and Long-term Care,
Japan

O3-1**Clinical outcomes of 168 cases of single-incision laparoscopic surgery for acute appendicitis**

Genki Okumura

Department of Gastrointestinal Surgery, Osaka General Medical Center, Japan

03-2

Optimization of intracorporeal anastomosis in robotic surgery for right-sided colon cancer: clinical outcomes and advantages of fusion surgery

Yoshihiro Morimoto

Gastroenterological Surgery, Osaka General Medical Center, Japan

03-3

Surgical outcomes of IMA preservation vs. non-preservation in laparoscopic and robot-assisted D3 dissection for descending colon cancer: A multi-institutional retrospective study

Shunji Sano

Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine, Japan

03-4

Short-term outcomes of total neoadjuvant therapy with short course chemoradiotherapy for locally advanced rectal cancer

Shumpei Shibaki

Department of Lower Gastrointestinal Surgery, Kitasato University School of Medicine, Japan

03-5

Surgical outcomes of cancer in patients aged 90 years and older

Nozomi Koyamada

Department of Surgery, Iwate Prefectural Chubu Hospital, Japan

03-6

Homeodomain-Only Protein (HOPX) may suppress invasion via *Laminin Subunit Beta 3 (LAMB3)* downregulation in colorectal cancer

Kyonosuke Ikemura

Division of Advanced Surgical Oncology, Research and Development Center for New Medical Frontiers, Kitasato University School of Medicine, Japan / Department of Lower Gastrointestinal Surgery, Kitasato University School of Medicine, Japan

03-7

Development of artificial intelligence navigation system for total mesolectal excision in medial approach of laparoscopic colorectal surgery

Shunsuke Fujita

Department of Gastroenterological and Pediatric Surgery, Faculty of Medicine, Oita University, Japan

15:55-16:40 Oral Session 4

Ocean Hall

Session Chair : Yoh Asahi

Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine, Japan

04-1

The novel prediction score for diagnosis of xanthogranulomatous cholecystitis and gallbladder cancer

Hirota Ito

Department of Surgery, Kasugai Municipal Hospital, Japan

04-2

Significance of lymph node dissection in intrahepatic cholangiocarcinoma

Takahiro Haruna

Department of Gastroenterological Surgery, Nippon Medical School Tama Nagayama Hospital, Japan

04-3**Positivity of drug-resistant bacteria in intraoperative bile culture is independent risk factor of clinically relevant pancreatic fistula after pancreaticoduodenectomy**

Shuhei Yamada

Department of Gastroenterological Surgery, Akita University Graduate School of Medicine, Japan

04-4**Pancreatectomy with celiac artery resection as conversion surgery for unresectable locally advanced pancreatic cancer (URLA)**

Satoshi Mizutani

Digestive Surgery, Nippon Medical School Musashikosugi Hospital, Japan

04-5**Image guided robot-assisted distal pancreatectomy using ICG fluorescence imaging and artificial intelligence**

Kazuhiro Matsuda

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

04-6**Strategies for patients with pancreatic cancer without pathological diagnoses**

Koji Kikuchi

Department of Surgery, School of Medicine, Iwate Medical University, Japan

16:40-17:15 Oral Session 5

Ocean Hall

Session Chairs : Miyuki Ito

Department of Gynecology, Rakuwakai Otowa Hospital, Japan

Tatsuhito Kanda

Department of Obstetrics and Gynecology, Kanazawa University, Japan

05-1**Optimal surgery at interval debulking surgery Improves survival in advanced ovarian cancer**

Ayaka Kitamura

Department of Obstetrics & Gynecology, School of Medicine, Iwate Medical University, Japan

05-2**Placement of bio-absorbable spacer during appendectomy prior to radiation therapy for endometrial cancer recurrence in the pelvic wall**

Kaoru Abiko

Department of Obstetrics and Gynecology, Kanazawa University, Japan

05-3**Comparing short term outcomes of robot-assisted sacrocolpopexy and laparoscopic sacrocolpopexy in the treatment of pelvic organ prolapse**

Hiroki Onoue

Department of Obstetrics & Gynecology, School of Medicine, Iwate Medical University, Japan

05-4

An effective method for teaching the robotic sacrocolpopexy (RSC) procedure to beginners in our center

Yuki Fukutani

Department of Gynecology, Rakuwakai Otowa Hospital, Japan

05-5

Generative AI-based application development for surgical problem-solving: Experience in outpatient gynecologic hysteroscopy

Takashi Hosono

Department of Obstetrics and Gynecology, Kanazawa University, Japan

17:15-17:55 Oral Session 6**Ocean Hall**

Session Chair : Makoto Suzuki

Department of Surgery, School of Medicine, Iwate Medical University, Japan

06-1

Effectiveness of the MIC-KEY Introducer Kit to reduce postoperative complications in gastrostomy

Masaki Shinohara

Department of Surgery, Gunma Children's Medical Center, Japan

06-2

Surgical strategy for vacterial aassociation with type C esophageal atresia, duodenal atresia, malrotation, anorectal malformation, and complex cardiac anomalies

Shigemitsu Kojima

Department of Surgery, Gunma Children's Medical Center, Japan

06-3

A case of posterior sagittal anorectoplasty in adulthood for refractory fecal incontinence after definitive repair of anorectal malformation in infancy

Soma Sakamura

Department of Gastroenterological Surgery I, Hokkaido University Graduate School of Medicine, Japan

06-4

Long-term defecation outcomes in female low-type anorectal malformations: Single institution experience focusing on anovestibular fistula

Nanako Nishida

Department of Pediatric Surgery, Kagoshima University, Japan

06-5

Development of ligand-based EphB4 CAR-T Cells with the *piggyBac* transposon system for neuroblastoma

Kotaro Morita

Division of Pediatric Surgery, St. Marianna University School of Medicine / Department of Pediatrics, Shinshu University School of Medicine, Japan

8:20-9:10

Poster Session 1

Ocean Hall

Session Chair : Satoshi Mizutani

Digestive Surgery, Nippon Medical School Musashikosugi Hospital, Japan

P1-1

Experiences of the treatment for primary malignant melanoma of the esophagus: a report of six cases

Kentaro Motegi

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

P1-2

Prediction of sarcopenia after gastric cancer surgery

Misato Shimooki

Department of Surgery, Morioka Red Cross Hospital, Japan / Department of Surgery, School of Medicine, Iwate Medical University, Japan

P1-3

Conversion surgery after successful immune checkpoint inhibitor-combined chemotherapy for unresectable advanced gastric cancer: a case report

Seiji Hotaka

National Center for Global Health and Medicine, Japan / Miyako Hospital, Japan

P1-4

Preoperative bowel preparation with Tokakujokito for sigmoid colon cancer: A case series

Kanki Otsuka

Department of Surgery, Iwate Prefectural Senmaya Hospital, Japan

P1-5

Short-term outcomes of laparoscopic colon resection for right-sided colon cancer in elderly patients

Takenori Segawa

Department of Surgery, School of Medicine, Iwate Medical University, Japan

P1-6

Early closure of diverting stoma due to refractory outlet obstruction after robotic surgery for rectal cancer: two case reports

Yuya Kondo

Division of Gastroenterologic Surgery, Tohoku Medical and Pharmaceutical University, Japan

P1-7

A Case of small intestinal GIST resected laparoscopically with the aid of a fluorescent Ureteral Stent

Takaaki Inoue

Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

Session Chair : Shingo Tsujinaka

Department of Gastroenterological Surgery, Tohoku Medical and Pharmaceutical University, Japan

P2-1

Review of appendiceal tumors experienced at our institution

Yusuke Suto

Department of Surgery, Hachinohe Redcross Hospital, Japan

P2-2

Emergency laparoscopic surgery for evisceration of sigmoid colon through a perforated rectal prolapse: a case report

Arisa Ono

Division of Gastroenterologic Surgery, Tohoku Medical and Pharmaceutical University, Japan

P2-3

Outcomes of laparoscopic Hartmann's reversal at our institution

Yota Tanahashi

Department of Surgery, Noshiro Kousei Medical Center, Japan

P2-4

A case of penetrating rectal injury with inflammatory spread to the pelvis

Akihito Jo

Department of Surgery, School of Medicine, Iwate Medical University, Japan

P2-5

A case of locally advanced rectal cancer with uterine cancer that achieved pathological complete response with pembrolizumab therapy

Yoshihiro Sasaki

Department of Surgery, Noshiro Kousei Medical Center, Japan

P2-6

Stanford type a aortic dissection followed by hemorrhagic rectal ulcer after distal pancreatectomy: A case report of life-saving multidisciplinary management

Kenichiro Yambe

Division of Hepato-Biliary and Pancreatic Surgery, Tohoku Medical and Pharmaceutical University, Japan

P2-7

Foundational AI for surgical navigation: A dual approach to phase and anatomical recognition in laparoscopic hernia repair

Shuta Kuchida

Department of Surgery, School of Medicine, Iwate Medical University, Japan / Department of Surgery, Iwate Prefectural Ninohe Hospital, Japan / Department of Surgery, Morioka Municipal Hospital, Japan

Session Chair : Junichi Arita

Department of Gastroenterological Surgery, Akita University Graduate School of Medicine, Japan

P3-1

Laparoscopic enterolithotomy for gallstone ileus in the elderly: A streamlined, evidence-based approach with dual benefit

Tomohiro Iwasa

Department of Surgery, Morioka Municipal Hospital, Japan

P3-2

A case of laparoscopic extended left medial sectionectomy for a 5-cm hepatocellular carcinoma adjacent to the umbilical plate

Kazuhiro Takami

Division of Hepato-biliary-pancreatic surgery, Tohoku Medical and Pharmaceutical University, Japan

P3-3

More than five-year survival following hepatectomy for a 93-year-old female with hepatocellular carcinoma

Junji Ueda

Department of Gastroenterological Surgery, Nippon Medical School, Japan

P3-4

A case of pancreatic neuroendocrine tumor forming a mass in the common bile duct

Riki Ujihara

Division of Hepato-biliary-pancreatic surgery, Tohoku Medical and Pharmaceutical University, Japan

P3-5

Case report: Splenic rupture due to ovarian cancer metastasis

Tomoki Fukata

Division of Hepato-biliary-pancreatic surgery, Tohoku Medical and Pharmaceutical University, Japan

P3-6

Salvage repair with fascia lata free flaps for early abdominal wall dehiscence after anterior component separation: a case report

Mai Watanabe

Division of Gastroenterologic Surgery, Tohoku Medical and Pharmaceutical University, Japan

Session Chair : Hiroaki Omori

Shizukuishi Omori Clinic, Japan

P4-1

A case report of Appendiceal neuroendocrine tumor in young patient diagnosed during acute appendicitis.

Yuka Koizumi

Department of Surgery, Iwate Prefectural Kuji Hospital, Japan

P4-2**A case of pelvic actinomycosis leading to perforated appendicitis**

Miyuki Ito

Department of Gynecology, Rakuwakai Otowa Hospital, Japan

P4-3**A case of laparoscopic cholecystectomy for acute cholecystitis with situs inversus totalis**

Kotaro Nanno

Digestive Surgery, Nippon Medical School Musashikosugi Hospital, Japan

P4-4**Delayed intestinal necrosis requiring surgery after initial conservative management of superior mesenteric vein thrombosis**

Saya Chiba

Department of Surgery, Division of Gastroenterological, General and Transplant Surgery, Jichi Medical University, Japan

P4-5**Pheochromocytoma multisystem crisis by bilateral pheochromocytomas in patients with multiple endocrine neoplasia type 2A**

Taku Kodama

Department of Surgery, School of Medicine, Iwate Medical University, Japan

P4-6**Treatment strategy for prostatic abscess: A case report and review of literature**

Satoshi Asakura

Hitachi Medical Center, Japan

P4-7**Selective removal of ovarian endometriotic lesions using CUSA clarity: A histopathological case study**

Tatsuhito Kanda

Department of Obstetrics and Gynecology, Kanazawa University Hospital, Japan

8:20-9:05**Poster Session 5****Ocean Hall****Session Chair : Nobumi Tagaya**

Director of Digestive Disease Center, Itabashi Chuo Hospital, Japan

P5-1**Development of an off-the-job training system for surgical skills using a web application and its effectiveness**

Yohei Kojima

Department of Gastroenterological and General Surgery, Kyorin University Faculty of Medicine, Japan

P5-2**A review of 1,308 adult inguinal hernia cases treated with the underlay methods**

Hidenobu Kawamura

Department of Surgery, Iwate Prefectural Chubu Hospital, Japan

P5-3**A Case of late local recurrence requiring surgery more than 5 years after rectal cancer surgery**

Kazuki Deguchi

Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

P5-4**Beyond surgery: Surgeons fulfilling expanded roles in neurological care in a rural medical area**

Chihiro Tono

Department of Surgery, Iwate Prefectural Kuji Hospital, Japan

P5-5**A multidisciplinary treatment strategy can provide early and safe cardiac surgery in infective endocarditis with cerebral hemorrhage**

Tomohiro Murata

Department of Cardiovascular Surgery, Nippon Medical School Musashikosugi Hospital, Japan

P5-6**Safe surgical removal of left ventricular thrombus in a patient with dilated cardiomyopathy and severely impaired left ventricular function**

Yoshiyuki Watanabe

Department of Cardiovascular Surgery, Nippon Medical School Musashikosugi Hospital, Japan

9:15-9:35**Special Lecture 1****Ocean Hall****Session Chair : Hiroya Kitano**

Director, Omi Medical Center, Japan

SL-1**A new wind rising: Weaving once more the story of medicine from this place**

Mikio Suzuki

Director, University Hospital, University of the Ryukyus, Japan

9:35-10:35**Sponsored Seminar 2****Ocean Hall****Future perspective of robotic surgery and its education of next generation****Session Chairs : Takeshi Naitoh**

Department of Lower Gastrointestinal Surgery, Kitasato University School of Medicine, Japan

Takeshi Aoki

Division of Gastroenterological and General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

SS2-1**Toward the social implementation of telesurgery in Japan: National challenges and progress**

Hajime Morohashi

Department of Community Medicine Promotion (Odate-Kitaakita), Hirosaki University Graduate School of Medicine, Japan

SS2-2**Expanding the clinical value of the hinotori™ surgical robot system: Insights from gynecology and beyond**

Tsukasa Baba

Department of Obstetrics and Gynecology, School of Medicine, Iwate Medical University, Japan

SS2-3**Integration of AI-assisted visualization into robot-assisted surgery in gastroenterological surgery: Enhancing precision and safety**

Takeshi Aoki

Division of Gastroenterological & General Surgery, Department of Surgery, School of Medicine, Showa Medical University, Japan

Sponsored by Kyoritsu Medical Equipment Co., Ltd. / Sysmex Corporation

10:35-11:05 Oral Session 7

Ocean Hall

Session Chair : Akira Umemura

Department of Surgery, School of Medicine, Iwate Medical University, Japan

07-1**Apnea-hypopnea index to visceral fat area ratio reflects pathophysiological conditions of patients with severe obesity undergoing laparoscopic sleeve gastrectomy**

Akira Umemura

Department of Surgery, School of Medicine, Iwate Medical University, Japan

07-2**Impact of maxillary sinus bone thickening on the diagnostic accuracy of odontogenic maxillary sinusitis**

Tetsuya Ikeda

Department of Oto-Rhino-Laryngology, Oral Surgery, Kyorin University School of Medicine, Japan

07-3**Lenvatinib plus pembrolizumab as "Presurgical therapy" for non-metastatic, locally advanced renal cell carcinoma: Initial experience in a single-institution case series**

Kei Tanaka

Department of Urology, Graduate School of Medicine, University of the Ryukyus, Japan

07-4**Impacts of a basic surgical skills simulation training rotation for beginners**

Yuuki Nagate

Department of Gastroenterological and General Surgery, Kyorin University Faculty of Medicine, Japan

11:15-11:20 Closing Ceremony

Ocean Hall

Akira Sasaki

Department of Surgery, School of Medicine, Iwate Medical University, Japan
